For a long time, we have cherished such a wish: to provide a scholarly platform to share global medical information. It is exciting that this dream is being realized by publishing *Global Journal of Immunology* now. We are committed to provide readers with professional, comprehensive and timely medical information and provide inspiring guidance for medical research and development. Sincerely, we wish this journal has a brighter future with the teamwork of the editorial board members, reviewers, authors and publisher.

*Global Journal of Immunology* is a peer-reviewed international journal with broad scope covering all areas of medicine, including basic, translational and applied research. They emphasize novel theories, technologies, biomarkers and therapeutic agents, as well as prevention, early detection and treatment of the diseases. Our editorial boards are supported by global distinguished and well-established scholars. Our aim is to publish a scholarly journal with high impact.
